## REBELS WILL HOLD JUAREZ FOR A TIME

Mexican Government Will Turn Its Attention to Torreon and Chihuahua.

AZCONA DENIES STORY

United States Asked to Close Custom House at El Paso; Officials in Quandary.

MEXICO CITY, Feb. 28.-No immediate steps will be taken to dislodge the rebels from Juarez either by slege or battle. Instead the government will devote its energies to clean up the district about Tor reen and Chihuahua.

This, seconding to the best information obtainable, was the conclusion reached at the meeting of President Madero's cabnet today after the difficulties of starving out the Juarez insurrectionists had been canvassed thoroughly.

A government official who was presen at the taking of the border city by Madero last May pointed out that it would require a large number of troops and a lose investment to prevent the rebels se-

close investment to prevent the rebels securing cattle and provisions from the surrounding country with which to maintain
themselves. The troops could not be
spared nor could they be placed about the
city without great difficulty, he said.
On the other hand, the government has
decided that military operations are to
be pushed vigorously in the Laguna district. Troops are being sent into that
territory from Saithle and Montetey and
results are expected within a few days.
In the apinion of government officials,
railroad traffic will be re-established
shortly on the lines connecting the latter
clics with Torroon.

#### Relief of Americans.

Valurdena.

A report was circulated here today that three Americans had been killed by the rebels. Careful inquiry falled to show any foundation for the rumors.

What stand General Orozco will take after tomorrow, the termination of the period of service covered in his promises to Madere several weeks ago when he expressed a desire to ratire appears to be giving concern. Government officials would not venture an opinion, but there was evident a lack of confidence in his loyalty. From other sources usually well informed it was learned that there was lack of accord between him and the administration.

#### Denial by Azcona.

WASHINGTON, Feb. 28.—Juan Sanchez Azrona, private secretary to President Madero of Mexico, in a telegram received here tonight, repudiates the statement printed in an "authorized interview," that he predicted a massacre of Americans in Mexico of United States troops crossed the line.

Senor Martinez, the Mexican embassador, today requested on behalf of the Madero government that the United States customs officials hold up shipments of arms to Mexico which might find their way to the insurrector. Acting Secretary Wilson of the state department told the embassador he would confer with officials of the treasury and the department of institute.

The request has put officials of this government in a quandury for when the Madero uprising was afoot the customs authorities permitted shipments of arms to Mexico in the results against the mexicon of the results against the mexicon of the results again. to Mexico in the regular course of com-merce, provided it were not evident that such shipments were pair of an armed expedition started in the United States.

### Rebels Foiled.

Rebels Foiled.

El. PASO, Tex. Feb. 28.—After General Salazar had repaired a train of thirty-six box and flatcars to move his army against Chibushus today, rallroad officials of both the Mexican Central and the Mexican Northwestern, by a sudden strategic movement, ran every bit of motive power in the Juarez yards to the American side. Most of the cars also were removed to the neutral side of the river. This coup, temporarily at least prevents Salazar from leaving Juarez with 800 men. He had proclaimed that he intended forming a junction with other rebels in the west. The entire movement, he declared, was to be directed by Pagonal Orozoo, whose resignation from March 1.

pliance with the request of the Nanking republicans, but the opinion at the logations is that the re-establishment of an effective central government will prove a grave problem and that instead of intendiate progress the development of Calna may be retarded seriously. Yuan Shi Kai, foreseeing in the idea of federated provinces a recurrence of the very troubles which precipitated the revolution, is endeavoring, according to some views, to obtain autocratic powers. The republicans continue to cuterfain a certain distrust of Premier Yuan and the new difficulties have developed since the abdication.

One report is that Yoan Shi Kai will proceed to Nanking within a fortnight, after the formation of the cabinet and the appointment or Tang Shao Yi as premier. The new premier would then remain in charge of the north during Yuan's absence

#### ORDER HELD UP BY COMMERCE COURT

WASHINGTON, Feb. 28 .- An order of the interstate commerce commission reducing certain class freight rates from New Orleans to Montgomery, Selma and Mobile, Ala., and to Pensacola. Fla., today was annulled by decision of the commerce court.

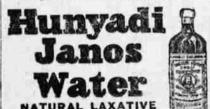

The decision is certain to add con-siderable fuel to the controversy, al-ready acute between the interstate commerce commission and the commerce

The court declares that congress never intended to clothe the commission with the wide authority it has as-sumed. It also has asserted that the court could discover nothing in the record in support of the conclusions of the commission or to justify the redu-tions in rates that it ordered. The court's opinion concludes: The

#### WOULD BAR RAILROADS FROM USE OF CANAL

WASHINGTON, Feb. 28.—Representatives of commercial organizations in Boston, Philadelphia, San Franciaco and Portland, Or., today urged President Taft to see to it that no transcontinental railroad be permitted to operate steamning lines through the Paulama canal. They advocated free traffic through the canal or tolls favoring American shipping. Later several renewed their appeals before the senate interstate commerce committee. William H. Wheeler of the San Francisco chamber of commerce and Joseph M. Teal of the Portland chamber of commerce appeared before the committee. Mr. Wheeler contended that burring railroad companies from operating steamships through the canal would not affect them injuriously.

Mr. Teal urged the committee to oppose the exaction of any tolls on coastwise shipping using the canal. He insisted the tax should fall on those big steamship companies which would derive the benefit. Senator Gore declared that to impose no toll would be unfair to the railroads which had to pay a tax on their right of way.

of the ten defendants today.

The witness, who is 70 years old and has been in the packing business since 1865, was on the witness stand all day. He told of attending the old beef pool meetings held every Tuesday afternoon in the office of Attorney A. H. Veeder, between 1898 and 1902, where information concerning shipments and margins were exchanged by packers.

He said that during that period his company used a black and red test cost in selling its beef.

The black test, he said, was the actual cost on which the allowances for byproducts were charged to meet market quotations, while the red test was fixed and never was changed except by agreement among the packers.
